ARTERIOR'S ANNOUNCES COLLECTION EXPANSION OF DESIGNER FAVORITES

(Lewisville, TX) March 28, 2025 – [Arteriors](#), a leading maker of luxury lighting, furniture, wall décor, and accessories, is pleased to announce the expansion of several best-selling collections, along with the addition of new performance fabrics to support the Hospitality and Contract sectors of its business.

These new selections include bold designs that meet the growing demand for exceptional home furnishings, seamlessly blending the brand's heritage of artistry, craftsmanship, and innovation.

With this compilation, over 160 pieces are imagined in new and exciting silhouettes, color palettes, textures and materials telling new stories while drawing upon the success of beloved existing designs. Meticulously crafted by master artisans, each piece embodies an uncompromising commitment to design excellence - where innovation meets tradition, and precision elevates raw material into timeless form. A testament to the artistry of fine craftsmanship, this collection continues to set new standards in luxury and refinement in the world of interiors.

For a fresh take on the iconic Bilal Chandelier and corresponding flush mount, fresh ivory coconut shell discs are sculpted over antique brass iron in a feathery, palm-like fashion. In other mixed-material moments, the Chanell Lamp pairs a sleek brass shade over a tapered conical base crafted from smooth, natural alabaster. The geometric and cleverly clasped Kris Rectangular Mirror is now treated to a bronze finish.

Expanding its outdoor assortment, Arteriors introduces 17 new designs, including an armed version of the Daytona Chaise Lounge, celebrated for its durable powder-coated aluminum frame meticulously detailed in a tightly woven, weather-resistant Dutch weave. The popular Chilton Armchair is now available in bar and counter stool options combining a sculptural back with handwoven synthetic rattan, a solid teak wood frame, and performance bouclé fabric. Additionally, the Dominic daybed is worthy of a nap and book-binging. Featuring unique, wire-brushed grade A teak veneers and fine joinery details, this daybed is equally suited for indoor and outdoor spaces.

The Poppy Chair, a wing-armed, statement swivel design, is now offered in four fabrics, including a performance velvet. Similarly, the curved Bahati dining chair, the sharply angled Barbana dining chair, the hammered iron-framed Osbourne bar and counter stools, and the hand-forged Ansel bar and counter stools are each now offered in high quality performance fabric.

Further enhancing its range of contract-suitable options designed for functionality and aesthetics. These include ADA-compliant lighting solutions that ensure safety and accessibility for individuals with disabilities.

To meet the immediate demands of the market, Arteriors offers a selection of in-stock items that are ready for immediate shipment. Many of the lighting designs in this collection are certified for use in various regions, including Europe, the Middle East, and Asia-Pacific. All products are assembled at the company's global headquarters in Texas.

About Arteriors

Founded in 1987, Arteriors is a Dallas-based company specializing in luxury lighting, furniture, wall décor, and accessories. Partnering with master artisans for nearly 40 years, the brand remains at the forefront of design, preserving and evolving heritage techniques while blending meticulous craftsmanship with innovation. Arteriors produces a full spectrum of styles in luxury materials and finishes, creating original, handcrafted statement pieces that honor tradition while shaping the future of design. The company is also known for its guest designer program, collaborating with leading interior designers to bring fresh perspectives to its collections. In addition to residential design, Arteriors offers a range of customizable contract offerings. The brand is a member of the Sustainable Furnishings Council and has recently joined Mindclick, a sustainability solutions company that rates the environmental health performance of manufacturers and their products, to elevate their mission of creating environmentally friendly products and manufacturing processes. Arteriors has trade-only showrooms in Las Vegas, Dallas, New York City, Atlanta, Chicago, High Point, N.C., and stores in Los Angeles in the La Cienega Design District, Dallas, Texas in the Dallas Design District, and London in the Design Center at Chelsea Harbour.
