Dream poetically in our cotton sateen duvet ensembles. Each is inspired from fine works of art. Designed in our studios in California. Made one at a time in Canada.

In luxurious silk charmeuse we brought to life ancient botanical illustrations from the Qing dynasty in the form of square scarves. These are generously large at 50"X50". More new designs this season at High Point Market.

Create something all your own. For this first time, we will be sharing our fabrics at High Point Market. Fabrications available include silky satin, sustainable organic cotton, and silk twill.

Discover our beautiful silky satin pillowcases at High Point Market. Each are inspired from fine works of art and patterned on the front and back. An invisible zipper is available on the bottom. Pillowcases are machine washable in cold gentle cycle.
