A New Chapter Begins

Mainly Baskets Home Celebrates A New Chapter With The Introduction Of Memoire Design By Mainly Baskets Home

Since 1977, Mainly Baskets Home has been a source for heirloom-quality rattan furnishings and a trusted partner to discerning interior designers and luxury retailers. This month, the Atlanta-based company introduces Memoire Design by MBH, a new name and look that reflects a broader scope of handcrafted rattan furnishings for the home, including outdoor and hospitality.

The evolution to Memoire Design embraces a broader vision for the legacy brand of almost 50 years, having grown from crafting exceptional rattan pieces to offering a full range of customizable furniture collections.

“Memoire Design encapsulates the stories and memories woven into every piece we make,” says Robyn Bailey, president. “While our name has changed, our commitment to timeless design, impeccable service and the artistry of rattan weaving remains at the heart of everything we do.”
