

Jamie Young Co. Introduces Spring 2026 Collection Celebrating Organic Form and Elevated Craftsmanship

New lighting, statement mirrors, and handcrafted accessories bring fresh scale, color, and texture to the season

LOS ANGELES, CA (April 2026) – Jamie Young Co., a recognized authority in the lighting and home décor industry, introduces its Spring 2026 Collection, a thoughtfully expanded assortment debuting this April at High Point Market. The new introductions span hardwire lighting, mirrors, accent furniture, and accessories—building on the brand’s signature aesthetic while exploring fresh materials, color, and scale.

Rooted in Jamie Young Co.’s DNA of organic shapes and natural textures, the Spring collection continues the brand’s commitment to artistry and craftsmanship while pushing the design language forward through refined detailing and expressive silhouettes. Across categories, the collection highlights tactile finishes, sculptural forms, and subtle variations that celebrate the beauty of handmade design.

The new lighting assortment, including chandeliers, pendants, and wall sconces, embraces Jamie Young Co.’s signature interpretation of glamour. Designs feature molded glass leaves, delicate strands of glass beads, and mixed-material compositions paired with brass and natural fiber accents. Soft, mood-setting hues bring an added layer of warmth and sophistication, creating statement fixtures that balance elegance with organic influence.

This season also expands the brand’s bestselling mirror collection with statement-scale designs, including 48-inch and 60-inch round silhouettes and elongated rectangles ideal for double vanities. Crafted from textured metals, warm woods, mother-of-pearl, and new glass-beaded detailing, each piece reflects the brand’s signature artisanal finishes and subtle irregularities. In accessories, two complementary stories emerge: a handwoven basket collection blending natural fibers with fresh color in updated shapes, and a porcelain series of thrown and sculpted vases and bowls finished with individually applied glazes, creating soft tonal variation and a sense of quiet, handcrafted artistry.

“We’re always looking for ways to evolve the collection while staying true to what makes it unmistakably Jamie Young,” said Jamie Young, Founder and President of the company. “This season we explored scale, color, and texture in new ways—from statement mirrors and sculptural lighting to handwoven baskets and porcelain vessels. Each piece is designed to bring warmth, character, and a sense of craftsmanship into the home.”

Continuing Jamie Young Co.’s tradition of pairing approachable design with elevated craftsmanship, the Spring 2026 Collection reflects the brand’s ongoing exploration of texture, scale, and globally inspired materiality, by bringing warmth, character, and timeless appeal to interiors.

The Spring 2026 introductions will be available to trade members through Jamie Young Co.’s trade portal and will be on display at Spring High Point Market in the IHFC Building, Floor 2, Showroom D223, and Interhall IH505.
