About Arihant Collection

Arihant Collection is a family-run cashmere manufacturer based in Nepal. For over two decades, we have worked closely with generational artisans who carry forward the tradition of handweaving.

Our atelier is located in the foothills of the Himalayas, where each piece is handcrafted using carefully sourced fibers, woven with precision, and finished with meticulous attention to detail.

We specialize in bespoke production, collaborating with interior designers, boutiques, and global trade partners to create textiles tailored in weave, weight, size, and finish.

Rooted in slow craftsmanship, ethical production, and material integrity, Arihant Collection offers a quiet, refined perspective on luxury.
