

CURREY & COMPANY

FOR IMMEDIATE RELEASE

The Royal We

The crown has been a powerful symbol of rulership, divine authority, and royal connection since the beginning of recorded history. Anyone who has viewed the crown of a monarch cannot fail to be awestruck by the radiance of the gold and other precious materials used to create the piece. Crowns are found in every culture throughout the world and symbolize the deep-rooted values and history of that culture. The sun and the coronas of the center of flowers are believed to be the inspiration for the crown form. This April, Currey & Company introduces the Coronet Lanterns in gold and champagne finishes.

CORONET GOLD LANTERN

CORONET CHAMPAGNE LANTERN

The Coronet Gold Lantern is fashioned from flat bands of metal that sweep out at the top to form a shape similar to a looping crown. These bend upward to fold around the bottom of the chain that makes the Coronet easily adjustable. The antique gold leaf finish makes this a luminous fixture, the artisanal treatment gleaming as the four lights strike the metal. The Coronet is dimmable. The lantern is also available in a silvery champagne finish.

The Coronet Lantern belongs to a new group of lighting designs that are attractively priced and appeal to retailers and young homeowners who want the impact of a distinctive product without an unmanageable price tag. This new ensemble consists of chandeliers, pendants, lanterns, wall sconces and lamps.
