This lighting collection draws inspiration from art, architecture, and lived experience with a neutral palette that feels grounded and versatile. Specialty materials like chiseled beech wood and textural ivory boucle nod to Hilary's background in fashion, resulting in lighting that is both sculptural and easy to live with.

"With this lighting collection, I set out to create statement pieces that play with scale and texture, fixtures that feel both sophisticated and playful," shared Matt. "The result is a collection of

products that I believe are currently missing from the market. My goal is to fill that gap for both customers and fellow designers alike.”

“We’re thrilled to have Hilary Matt as a Mitzi Tastemaker,” said Malaina Matheus, President of Hudson Valley Lighting Group. “Hilary has a remarkable ability to create interiors that feel both beautifully composed and incredibly livable. Her point of view is fresh, thoughtful, and deeply rooted in how people actually experience their homes. That perspective made her a natural choice for Mitzi, and we’re excited to see how her design sensibility translates into lighting that designers and homeowners alike will connect with.”

The collection is available through Mitzi.com. Please find all hi-res images [here](#), courtesy of HVLG. For questions or additional assets please reach out to [sbullinger@hvlgroup.com](mailto:sbullinger@hvlgroup.com)
