FOR IMMEDIATE RELEASE

Noz Nozawa Launches Second Collection with Corbett Lighting

Interior Designer Noz Nozawa launches her second collection with HVLG's Corbett Lighting

Wappingers Fall, NY (April 23, 2026) — San Francisco-based interior design firm [Noz Design](#), led by designer Noz Nozawa, unveils its second lighting collection in collaboration with [Corbett Lighting](#), part of the [Hudson Valley Lighting Group](#). Known for creating immersive residential and commercial spaces rooted in narrative and a collected-over-time aesthetic, Noz Nozawa brings a deeply personal and imaginative perspective to this latest release.

Continuing her vision of lighting as “jewelry for the home,” the new collection introduces a rich palette of organic textural materials, including handwoven rattan, bleached abaca, and luminous alabaster. These elements bring warmth, tactility, and a sense of natural elegance to a series of sculptural fixtures designed to transform interiors.

L-R: Kiso chandelier, Kune fixture, Hoshi 3-light chandelier

Nozawa’s signature chain details make a return, reinterpreted with added texture and material depth. These refined elements complement the collection’s imaginative new silhouettes, resulting in pieces that feel both familiar and newly evolved. Throughout the collection, layered references reflect Nozawa’s inspirations—from the outdoors and traditional craftsmanship to food culture and small, unexpected moments of delight in everyday life.

“I always start with ‘who is this for?’ and ‘what story am I trying to tell?’ and then I go from there, doing research and exploring different directions,” shared designer Noz Nozawa. “While some of the lighting designs are totally new to this collection, others incorporated silhouettes or materials that were most loved from our first collection and expanded or adapted the language to take on a more nature-driven point of view.”

The collection spans chandeliers, pendants, sconces, and flush mounts, each crafted with Corbett Lighting’s commitment to artisanal quality and expressive design. Together, the pieces balance bold sculptural presence with an inviting, livable sensibility suited for both residential and hospitality environments.

“Working with Noz again has been an inspiring collaboration,” said Sarah Speck, HVLG Director of Product Strategy and Partnerships. “Her ability to translate storytelling into design results in lighting that feels both deeply personal and universally resonant. This second collection brings a fresh, nature-infused perspective to the Corbett portfolio.”

The collection is available through hvlgroup.com. For questions or additional assets please reach out to sbullinger@hvlgroup.com
